

UKARDE
TEXTILES GROUP

Ukarde Textiles

Life in every thread

Introduction

- Ukarde Textiles is a reputed manufacturer of wide range of greige industrial fabrics since 2007 based out of Ichalkaranji, Maharashtra.
- We have recently setup a state of art weaving unit for manufacturing wide range of high quality greige sheeting fabrics this year. We are also based out of Kagal MIDC, District Kolhapur, Maharashtra.
- With more than 12 years of experience in the industry we strive to constantly research and develop fabric that suits modern needs.
- Our vision is to achieve total customer satisfaction focused in conversion cost, minimizing wastage, leveraging economies of scale, and to keep our self future ready to upgraded technologies

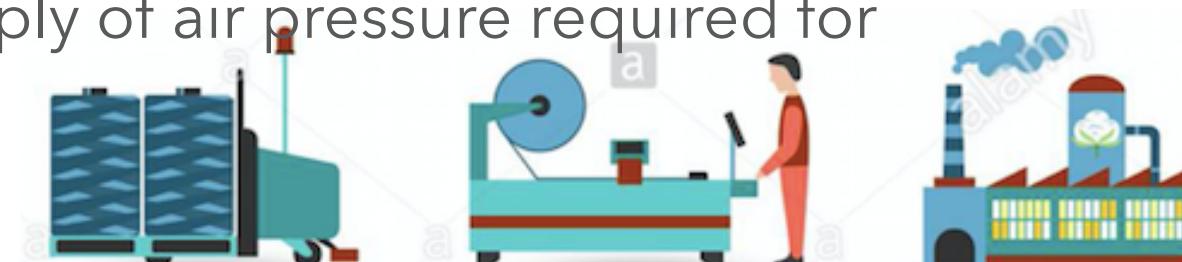

Capabilities

- Our premises in Ichalkaranji spans across 22000 sq. ft. of construction that enables us to have all facilities for weaving under a single roof.
- Our machinery include
 - 18 shuttle looms for woven fabrics in weight(s) ranging from 80gsm to more than 450 gsm and width(s) from 26" to 72"
 - Humidification plant with automatic controls for uniform humidity and temperature
 - Knotex make knotting machine

Capabilities

- Our premises in Kagal MIDC spans across 40000 sq. ft. of construction that enables us to have all facilities for weaving fabric under a single roof.
- Our machinery include
 - 36 Tsudokama Zax9200i Master Airjet looms for sheeting fabric ranging from 120TC up to 1000TC
 - Automatic fabric checking and rolling machine
 - Luwa Humidification plant with automatic controls for uniform humidity and temperature
 - Knotex make knotting machine
 - Kaesar Compressor for best supply of air pressure required for looms.

Capabilities - contd

- Our production capacity
 - We are capable to manufacture 4 million meters annually
 - Being located in MIDC gives us uninterrupted power supply and excellent highway connectivity to connect with ports.

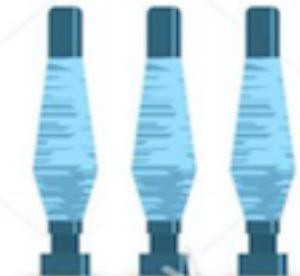

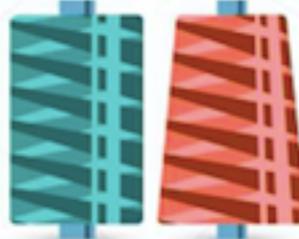

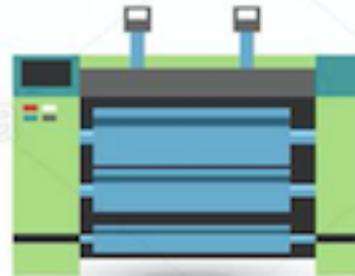

Capabilities - contd

Quality and Products

- We thrive for best quality deliverables for our customers
